

St Ippolyts CE (Aided) Primary School

A copy of this homework grid and the current curriculum overview is available on the school website www.stipps.herts.sch.uk (under the 'For parents' tab)

HOME LEARNING Summer 1 2018

Class 5

Miss L. Walker

HOW TO USE THIS GRID

Over this half term, **choose 4 activities** from the boxes below. You need to choose at least one **English** and one **Maths** activity, the rest are up to you.

You can complete the activities whenever you want over the half term so long as you have done at least 4 by the end of the half term.

When you have completed one of the tasks, bring it into school to display on the **Proud Wall** or on our homework display. You could earn house points for home learning too!

WEEKLY HOME LEARNING

- On **Tuesdays** you will receive a set of spellings to learn and a piece of English or Maths to do.
- Your piece of homework is due in and your spellings will be tested on the following **Monday**, which means you have a whole week and a weekend to do it.
- It is **your responsibility** to copy your spellings correctly off the board. They will be written clearly so mistakes should not be made.

DAILY READING AND TIMES TABLES

- **Read every day at home**, by yourself or to an adult. **Remember to get your homes school contact book signed.** Discuss what you have read and record your reading in the diary. Remember to explore any new vocabulary you come across too. Home school contact books will be collected in on a Monday as well to monitor this.
- Practise your times tables too, just a few minutes a day to learn them by heart ready for our turbo tables!

ENGLISH

- Create a word mat of vocabulary for a subject area of your choice.
- Write your own short play script. Decide where and when you will set it and ensure your language choice is appropriate.
- Using your reading book, create your own reading comprehension questions and provide answers.

MATHS

- Follow a recipe and make something delicious.
- Plan and research a day trip for the summer holiday. Calculate the cost and price of everything you will need! Think about how you will get there, how many people, food, tickets etc.
- Decide on 15 different numbers – now show all the ways you could group them. For example; prime numbers, factors of 3, when you add the digits in the number together they are larger than 30. There are so many possibilities, be imaginative!

SCIENCE

With an animal or insect of your choice, show its life cycle in an interesting way.

RELIGIOUS EDUCATION

Draw a detailed picture of what you think the Kingdom of God might look like. Use colouring pencils to shade and sketch.

COMPUTING

With an adults permission, log onto <https://www.kodable.com/hour-of-code> and click 'students start here'. Then click 'play without saving'. You will then be able to choose different levels of coding games to play. This is a great website to explore, with many opportunities to develop new skills!

HUMANITIES (History/Geography)

- Create your own 3D Viking shield.
- Research Viking weapons. Choose one to draw and write key information about.
- Use this website to research an area of your choice; <http://primaryhomeworkhelp.co.uk/vikings.html>

ART / D&T

Research Banksy – see if you can present your findings in a similar style!

PHYSICAL EDUCATION

Devise a warm up or cool down game that can be used in PE – you can then teach the class!

MUSIC

Listen to a piece of classical music, either a CD, on the radio on online. Note down what instruments you can hear.

PSHE&C (Personal, social, health education, and citizenship)

Draw a detailed picture of yourself and write about all the good things you do, say and are.
